

MEDICAL PEELS

Reveal your youthful skin beneath

Our medical exfoliation and resurfacing treatments accelerate the repair and recovery of the skin by removing unhealthy cells and stimulating the growth of new cells.

The new skin revealed after a medical peel is smoother, healthier and younger looking. Can be performed on your face, neck or hands.

Treatments are adapted to your skin needs from a lighter rejuvenating peel to a deeper corrective peel based on the type and concentration of the product.

BENEFITS

- Reduces wrinkles and fine lines
- Brightens complexion
- Fades age spots and scars
- Tightens pores
- Removes blackheads
- Restores skin suppleness

Rediscover a younger you
